Robbery Kits Now Available

Mississauga, ON: Level Five Strategic Partners Inc. in partnership with Veritas Training Consultants (CARTA) has created Robbery Kits designed specifically for credit unions.

“Over the past several years credit unions have asked for a post-robbery tool kit to assist employees in the event of a robbery”, says Todd Moore, President of Veritas. “We know that a robbery is both stressful and traumatic and having quick access to a procedural guide removes the anxiety of having to remember what steps to follow when assisting Police in their investigation and apprehension of the robber”, he adds.

“Robbery Kits are available today and include not only post-robbery tools but pre-robbery items to help credit unions meet best practice guidelines, says Randy Tanaka, President of Level Five. It is important for us to provide the best products and services available to help our credit union partners succeed.

Check out the Level Five website at www.levelfive.ca for more information about how you can order your Robbery Kit today or contact:
