

Level Five's Credit Union Director Program "Hits the Mark"

February 23, 2011

FOR IMMEDIATE RELEASE

Mississauga, ON: Designed specifically for Ontario Credit Union Directors, the Professional Directors Program (PDP) is the director training solution all credit unions have been looking for. "With more emphasis placed on board accountability, regulatory requirements and enterprise wide risks it is critical for Ontario Directors to have a comprehensive educational program that is up to date and emphasizes the requirements specified in DICO By-law No. 5 Standards for Business and Financial Practices", says Randy Tanaka, President of Level Five.

"Ontario Credit Union Directors have shared their ideas of what type of training and professional development is most effective for them and combine that with input from DICO we believe the way our program is delivered and the up-to-date content 'hits the mark', he continues.

The PDP includes four Series: Governance, Financial Performance Reporting & Monitoring, Operational and Strategy. There are also Elective Courses including: Advanced Ethics, Advanced Strategic Planning, and Commercial Lending for Directors, Mergers & Acquisitions, Information Technology Systems & Infrastructure and Audit Committee.

The program includes subject matter experts, case studies and group work with each series. Each Series is held over a weekend and they are available in open sessions or arrangements can be made to deliver the series in-house.

In addition, an annual Directors Knowledge Exchange session offers Ontario Directors with the opportunity to engage in discussions with their peers, share knowledge and experiences in a challenging and stimulating environment.
